The keyplan is for convenient reference only and is not to scale, nor is it intended to be an accurate depiction of proposed improvements, or exterior grounds or amenity areas. Square footage listed are approximate and are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls. These areas vary from the dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes interior structural components). For your reference, the area of the Unit, determined in accordance with those defined unit boundaries, is set forth in the offering materials. All dimensions are approximate and may vary.
